Get [Skype for Android](#) from the Play Store or Skype for [iPhone](#) and [iPad](#) from the iTunes App Store.

Once your account is established, please let us know (*BTW, you don't need a Skype "business account" or monthly subscription to use their free service*). **I'll send you a Skype "contact request"**. All you need to do is **log on to Skype** and it will tell you that I've requested that you make me one of your contacts. **Approve the request** and *viola !* We are good to go.

We can do a **dry run** of the Skype video call prior to our scheduled call, if you like.

Just let me know when you'll be able to log on to Skype in a private environment....we'll walk you through the process.

Useful Skype instructional videos can be found at:

When you go to this support URL site, take a **look at the following videos**:

- **Check your Audio and Video Settings**
- **Make Video and Voice Calls to Your Friends On Skype**

Let us know when you want to do the test run and we'll initiate the call from our side.

Looking forward to video chatting with you!
